Profile

I am an honest, confident and professional person who will get the job done in any way. Always eager to learn something new. I was working as a Junior Instructor (Computer) in a private institute for 3 years long. Now I want to change career and move to web development. So i am looking for entry level job. I am confident that I will succeed. And this belief comes from the skills I have acquired. I specialize in HTML, CSS, Bootstrap, JQuery, Ajax, PHP, Mysql and Laravel. And some examples of work related to this I have mentioned in my resume. I am confident that I will be a great addition to your organization.

Project

1. www.webmvwit.com
Complete this project with wordpress theme customization.
2. Inventory Management system with Laravel.
